

Pavers

Dublin Paver

This cobble-top paver is the most popular system on the market today.

The Dublin Pavers comes in five sizes, four rectangles & one square.

Ideal for patios, walkways & driveways. Dublins come in six colors: gray, red, tan, red/black, tan/brown & charcoal.

Holland Pavers

Holland Pavers are a 4" by 8" that is 60 mm thick. It has a smooth top with a bevel around the outside which makes for a real sharp appearance once installed. The Holland is available in all the same colors as the Dublin Paver.

Serpentine Paver

This interlocking paver is both attractive and durable. Manufactured 3 1/8" tall, this paver can be used for anything.

Where pavers really show

their ability to out perform poured concrete and asphalt is in driveways or heavy wheel traffic areas. Pavers move rather than crack or crumble like poured concrete and they are more resistant to "ruts" as develop in asphalt. The Serpentine Paver is a great choice for traffic areas. It comes in five colors: gray, red, tan, red/black & tan/brown.

Patio Stones

Exposed Aggregate

Rather than having a smooth appearance, this block shows off the beautiful aggregate in the stones surface. Our exposed aggregate is a beautiful choice for any application of patio stones. From full patios to walk ways to paths, exposed aggregate gives a stylish yet authentic look to landscaping.

We manufacture exposed aggregate in a 12" square, an 18" square, a 14" hexagon and an 18" round. Exposed aggregate comes in gray and tan.

BRICK PATTERN

Our brick pattern is 18" square and 2 1/8" thick. We are the only producer of an 18" brick pattern as opposed to a 16". The 18" square covers 1/2 square foot more than the 16". The brick pattern is a popular appearance because it has the ease of using a larger patio stone with the

appearance of many smaller pavers. This block comes in four colors: gray, red, tan & black.

Patio Stones

SQUARES

Our squares come in four sizes. We manufacture a 12", a 16", an 18" and a 24" square. All of our squares

are 2 1/8" thick. Square patio stones make a great patio but also can be used as a pathway or under-

neath planters or garden ornamentation. Because of the importance we place on quality, all of our products have high compressive strengths, good density and low absorption.

We currently stock our squares in four colors: gray, red, tan and black.

Rounds

Rounds are the preferred solution by homeowners and landscapers to create a decorative path. They are also commonly used underneath outdoor planters or to dress up yard ornamentation. We manufacture our

rounds 2 1/8" thick and in four different diameters: 12", 16", 18" & 24".

The colors available are gray, red, tan & black.

Patio Stones

Hexagons

Hexagons are the most versatile of our patio stones. They create an unparalleled appearance in a patio. Beautiful walkways and paths can be created. When landscaping calls for patios and

pathways, hexagons are perfect for uniformity. Our hexagons come in two sizes: one is 12" flat to flat/14" point to point, the other is 16" flat to flat/18" point to point. Colors available are gray, red, tan & black

Rectangles

We manufacture three different kinds of rectangles. Pictured below is our brick pattern slab, 2 1/8" thick by 8" by 16". The remaining two rectangles are smooth in appearance with no pattern. One is 2 1/8" thick by 12" by 24" and the other is 1 5/8" thick and 8" by 16". The 12" x 24" works well in

patios with our 24" square. Rectangles work well to give a different look to a patio or walkway. Our rectangles come in gray, red, tan & black.

Cobblestone

We are excited to add the Cobblestone patio stone to our product line. This stone is 18" square and 2 1/8" thick. The impression on the top mimics a circular cobblestone pattern outlined by a running bond pattern.

This patio stone can be installed several different ways to show off different patterns. Installers can choose to create large circle patterns in the patio or maybe a serpentine pattern. Many more patterns could be conceived with a little creativity.

The Cobblestone is available in six colors: gray, red, tan, red/black, tan/brown and charcoal

Pavers & Patio Stones

St. Vrain Block Company has been manufacturing high-quality concrete products since 1946. Today, we have the most diverse manufactured concrete product line available.
